

PGP trust levels

zaterdag 26 november 2022 19:59

Key validity level	Description	Assignment conditions
No answer	Nothing is said about this key.	
Unknown	Nothing is known about this key.	There are no signatures from any keys with validity level 'complete' and owner trust 'marginal' (or higher).
Marginal	The key probably belongs to the name.	There is at least 1 signature and there are less than x signatures with key validity level 'complete' and owner trust level 'marginal'.
Complete	The key definitely belongs to the name.	There are at least x signatures with key validity level 'complete' and owner trust level 'marginal'.
Ultimate	Own keys.	

Owner trust level	Description	Assignment conditions
Unknown	Nothing can be said about the owner's judgment in key signing.	Computed from owner trust of signers only using 'ultimate' valid keys.
None	The owner is known to improperly sign keys.	
Marginal	The owner is known to properly sign keys.	
Complete	The owner is known to put great care in key signing.	
Ultimate	The owner is known to put great care in key signing, and is allowed to make trust decisions for you.
